RE: Provider Enrollment-Ordering and Referring Providers

**Please share this information with administrative, clinical, and billing staff.**

Per 42 CFR 455.410, the State Medicaid agency must require all ordering or referring physicians or other professionals providing services under the State plan to be enrolled as participating providers.

All claims submitted to Nebraska Medicaid must include the NPI of the ordering or referring provider and that provider must be enrolled in order for Nebraska Medicaid to consider claims for payment.

Please refer to Title 471-Nebraska Medical Assistance Program Services regulations for information about provider types that are appropriate to order and refer services.
